*“The support that we have been provided has been outstanding! We could not have implemented Naviance without the guidance we received from [our consultants] and [success manager]. I am so very grateful for your time, attention, and patience.”*

– DR. CHARMAINE HARRIS,  
Waukegan Public Schools

### Accelerate and Elevate Your Naviance Implementation

Implementing a comprehensive and robust college and career readiness program requires serious planning, coordination, and follow-through. Hobsons K-12 consultants have worked with hundreds of school districts to implement Naviance and our K-12 solutions. Our consultants work with each school and district to provide a customized plan to ensure a successful, effective, and impactful Naviance implementation.

### Naviance Project Consulting

Naviance Project consulting provides guidance and project management expertise for every step of the Naviance implementation process.

- Serve as project liaison charged with leading the district's project steering committee
- Provide a detailed project plan and track progress
- Support initial implementation including data importing and initial configuration
- Offer implementation best practices and guidelines
- Provide ongoing support to school and district staff

### Naviance Strategic Consulting

Naviance Strategic consulting is designed to scale solutions and best practices to support district wide initiatives related to college and career readiness.

- Serve as an academic advisor capable of facilitating discovery, analysis, and resolution of district challenges
- Work with district staff to align key milestones with strategic plans and initiatives
- Analyze data to drive system-wide improvements
- Provide guidance on district-level change management
- Support district staff to redefine processes to increase effectiveness and efficiency
